

2025-2026 Project List TRIM Predoctoral Fellowship Program

The TRIM predoctoral fellowship supports an intensive year of research activity and training for doctoral students. Each predoctoral fellow works closely with an Osher Center faculty research mentor and typically develops work related to their mentor's existing research project(s). Applicants must name the faculty that they are interested in working with on the application.

If you have any questions, please contact the program coordinator, Yvette Coulter (E: yvette.coulter@ucsf.edu / P: 415-353-7991)
